RSUs, explained without jargon

A simple guide for anyone with equity comp.

Swipe to begin →

A promise of shares

An RSU is a promise from your company to give you shares later.

They vest over time

The shares usually become yours on a vesting date.

Vesting can be taxed

When they vest, they may be treated like income.

Then it becomes risk

After vesting, they are part of your portfolio — risk, tax, and decisions.
